

VACUUM DRIVEN, DIAMOND TIPPED SKIN RESURFACING SYSTEM

Innovative Microdermabrasion System Provides Safe, Clean, Precise And Effective Skin Rejuvenation

Key Provider Benefits

~ Controllable Precision ~

- Exfoliation Occurs Only Where Clinician Chooses
- Amount of Resurfacing is Determined by the Clinician Through the Choice of Diamond Grit, Vacuum Pressure and the Number of Passes Over and Pressure Applied to Affected Areas
- Complete Freedom to Alter Treatment as Required by Easily Changing Diamond Wands and Vacuum Pressure in Mid-Procedure

~ Clean & Safe Operation ~

- Eliminates Air Borne Particles Found with Crystal Blasting Systems to Prevent Inhaling of Contaminated Debris
- Reduces Operative Area Clean-Up Requirements Compared to Blasting Systems
- Does Not Embed Contaminated Crystals in Skin to Greatly Reduce the Possibility of Irritation, Burning and Infection
 - Wands May be Sterilized or Soaked in Antibacterial Solutions

~ Enhanced Patient Acceptance ~

- Fast, Quiet and Reliable Procedures
- Exact Location and Degree of Treatment May be Altered Per Patient or Clinician Desires Creating Results that Fully Meet Patient Expectations

~ Value ~

- Highly Competitive Initial Purchase Price
 - Extremely Low Procedure Costs
 - Very Durable, Long Lived Components

Key Distributor / Dealer Benefits

~ Dual Sales Potential ~

- Two Systems Available – One Targeted for Licensed Medical Professionals and Another for Spa Based Aestheticians

~ Patented System ~

- Highly Unique System in the Early Years of Patent Life – Patented in Many Countries Worldwide and Several More Due Soon

~ Strong Earnings Potential ~

- Very Generous Double Digit Commission Percentages Enjoyed by U.S. Associates

~ Thorough Sales Support ~

- Email Newsletter, Web Site Demos, CD Presentations, Promotional Literature, Educational Materials and More

~ Potential for Exclusive Sales Territories ~

- Based on Regional Needs and Level of Dealer / Distributor Commitment Exclusive Relationships May Be Possible
